The Forest Family

Awards

1st March 2024

ALL SAINTS

Class 1: **Pippa** Class 2: **Poppy** Class 3: **Sam A** Class 4: **Oliver N**

Badges: **Zack (Bronze Cup)** **(Gold Star)**

Headteacher awards: **Matthew, George CH, Joseph H, Harvey S, Ella-Ray**

Writer of the Week: **Morgan**

NEEDWOOD

Class 1: **Margaux** Class 2: **Sienna** Class 3: **Daisy G**

Badges: **Poppy (Bronze Star)** **William (Bronze Cup)**

Headteacher awards: **Thomas, Polly, Minnie, Heidi, Margaux, Ostara, Eric, Orion**

Writer of the Week: **Jude**

Dear Parents,

At the end of another busy week I would like to thank everyone for supporting our parent consultations. It has been great to see such a high turnout for both schools. The teachers have really valued the opportunity to talk with you all.

A reminder that our Mother's Day lunches and services are next week. We look forward to seeing you in school for lunch on Thursday and at Church for the services on Friday.

Have a great weekend,

Best wishes,

Mr Baxter

**Please Note there will be NO celebration worship on the last day of term.
(Awards will be given at the Easter services.)**

Events and dates are subject to change but we will always try to stick to dates as much as possible.

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one of many issues which we believe trusted adults should be aware of. Please visit www.nationalonlinesafety.com for further guides, hints and tips for adults.

What Parents & Carers Need to Know about PHONE SCAMS

In a three-month period during 2021, no fewer than 45 million people in the UK experienced a suspicious attempt at being contacted via their mobile. Phone scams are a common form of cyber-attack where fraudsters engage directly with their intended victim through their smartphone. As our phones carry so many sensitive (and therefore potentially valuable) details about us, it's vital that trusted adults are alert to the tactics that scammers use to get access to user accounts, personal data and private information for financial gain.

WHAT ARE THE RISKS?

SMISHING

SMS phishing, or 'smishing' is one of the most common forms of mobile-based cyber-attack. Smishing is when a scammer texts their target, pretending to be a reputable person or organisation. They aim to trick the victim into supplying sensitive data such as bank details and personal information, so that they can then access the target's bank accounts and remove money.

IMPERSONATION

Fraudsters often impersonate someone else to trick the victim into actually transferring money directly. They might claim, for example, to be a friend or relative using a different number who urgently needs funds. Other common cons include sending fake texts informing the target that they have a package which requires a fee to be delivered, or that they have an unpaid bill to settle.

NUMBER SPOOFING

Here, the scammer takes impersonation a step further by cloning the phone number of a genuine company. So when the target receives a call or text, their phone recognises the sender's number as legitimately belonging to Amazon, HMRC, the NHS or the DVLA (who have all been impersonated in these cons). This makes the scam far harder to spot and the victim much more inclined to comply.

FAKE TECH SUPPORT

Attackers contact a target, pretending to work for their employers' IT support team. They then advise them to download some software to fix 'a technical issue' with their device. In reality, however, the software grants the scammers access to the victim's private data and sensitive information. This can be more common on desktop and laptop devices, but is still possible to accomplish on mobiles.

SIM HIJACKING

SIM hijacking switches control of a phone account from the victim's SIM card to one in the scammers' possession. Criminals use personal details pieced together from social media (birthday, address, pet's name and so on) to pose as you, then instruct your phone network to transfer your number to their SIM – giving them access to all calls and texts meant for you, including one-time login passcodes.

Advice for Parents & Carers

DO SOME DIGGING

If you've received a call or text asking for specific information, research the caller's number. There are several websites that allow you to enter a phone number and will then display any relevant information about it – this usually includes feedback and comments from other people, so you can easily see if that particular number has been implicated in potential scams.

TRY A CALL BLOCKER

If a suspicious call comes through on your mobile, you can manually block the number if you believe it to be dubious or a nuisance caller. Alternatively, you could consider installing a call blocker service on your phone. They automatically stop calls getting through from numbers which have been reported as suspicious, halting potential scammers in their tracks before they can reach you.

VERIFY THE SOURCE

Never disclose confidential details to an individual or organisation you're unfamiliar with. If the caller claims to represent a company you trust but is still asking for personal information or payment on an outstanding charge, end the conversation. Then find the company's genuine number on a bill or on their website and call them directly to confirm if there really is an issue you need to address.

BREAK OUT THE TECH

Lots of anti-virus software now also protects mobiles. Some anti-virus apps can detect phishing links in text messages and alert you to the risk. When you're out and about, try not to use public WiFi for sensitive transactions: it's far less secure than your home WiFi network. Instead, you could consider installing a VPN (virtual private network), which encrypts all data travelling to and from your phone.

REPORT INCIDENTS

If you or a family member does give out confidential information to a caller you aren't sure about, contact the actual company mentioned to check if the call was genuine. If they confirm that the call was not made by their organisation, you should report it as a potential scam via the Action Fraud website and (depending on exactly what information was divulged) consider involving the police.

BE WARY OF LINKS

If you get a message from an unknown number asking you to click on a link, report it as spam and do not open the link. One recent example 'warned' victims they'd been exposed to the Omicron variant and needed to click a link to buy a special test – only to find they had paid their money to scammers. Links can also install malware onto your device, so always treat them with extreme caution.

Meet Our Expert

Formed in 2018, KryptoKloud provides cyber security and resilience solutions to its customers. With offices in the UK, the company offers managed service operational packages including cyber security monitoring and testing, risk audit, threat intelligence and incident response.

Users of this guide do so at their own discretion. No liability is entered into. Current as of the date of release: 23.03.2022

Our first Forest School session was great fun. As there was some maintenance work needed in the forest, because of the recent high winds, I decided to take them pond dipping in the park. Always VERY popular.

The children's behaviour was impeccable. Each had a net and despite the banks being a little water logged and soft nobody fell in! In fact they remembered their recent residential pond dipping and made sure someone held on to anyone that might lean in slightly.

It was very uplifting to learn, because of the things we found, that the river is in fact very healthy and despite seeing a little scum floating, in the main the occupants we found there was a clear indicator that our water was rich in nutrients.

They found dragon fly and mayfly larvae in addition to a very chubby fish - not quite sure what variety - but it had a very large mouth and the children were thrilled to get a close up when put briefly into the specimen pot.

A couple of laps running around the park, refreshments and a sing song finished the session. Whilst enjoying our refreshments the children had to guess the bird to their song and whilst not many guessed correctly yesterday they were impressed to learn that the little male Wren made not one but several nests in the spring to entice a mate and to give her a choice on one she likes.

Den building next week..

BURTON LIBRARY - WORLD BOOK DAY EXCHANGE HUB

Burton Library is delighted to announce they will be a World Book Day Exchange Hub this year 😊.

From 15th February until 31st March, children can bring their World Book Day token to the library to exchange them for one of the free World Book Day books.

As the child choosing their own book is an essential part of the World Book Day token programme, please note that children must attend the library themselves to exchange their token.

Tokens cannot be exchanged on their behalf by a parent/carer or by any school staff.

Disclaimer: We are proud to have a newsletter which shares information with you for our parish, village, WI, social club, Rascals and our local communities. We do try to vet all items which go into

School information can be provided in different languages, large print, simple text only or Braille.

Please speak to Mr Baxter if you have a particular requirement.
